ELEGANCE & GS

- 17″ Alloy Wheel
- 215/ 60 R 17 Tyres
- Emergency Tyre Inflation Kit (In lieu of spare wheel)

 Images shown for illustrative purposes only. Talk to your local service manager about a spare wheel aftermarket soloution.

09. POWERTRAINS: PERFORMANCE, FUEL ECONOMY & EMISSONS

ELECTRIC POWERTRAIN

Single-Speed Electronic Drive Selector

As the motor is an all-electric single-speed drive unit, there is no need for multiple gears.
Instead, the shifter lets the driver select from the following:

- Park
- Reverse
- Neutral
- Drive
- Braking (for increased regenerative braking)

Charging

The Frontera Electric's charging flap's Padlock LED lights up when the cable is correctly plugged in and locked and then acts as a user interface to show the charging status via coloured LED lights:

- **White:** welcome light that helps to light up the area, especially useful in dark conditions
- **Flashing green:** charging in progress
- **Solid green:** charging complete
- **Solid blue**: delayed charging toggled; changes to flashing green when charging commences
- **Solid red:** malfunction

The driver may also choose from two settings:

- **Immediate charging** (the standard setting): Starts charging as soon as the vehicle is docked for charging;
- **Delayed charging**: This is especially useful for when cheaper electric rates are desired, e.g. charging at night. Simply enter a charging start time.

NEW OPEL FRONTERA

DRIVETRAIN- ELECTRIC	44Wh	54kWh
C02 EMISSIONS	0g/km	
MAX POWER	83kW Peak | 53kW Continuous
